

- DOLEV MEN
- DOLEV WOMEN
- DOLEV SPREY

What a food supplement is?

- A food supplement is defined as 'any food the purpose of which is to supplement the normal diet and which is a concentrated source of a vitamin or mineral or other substance with a nutritional or physiological effect, alone or in combination and is sold in dose form'.

Why use food supplements?

- Food supplements are intended to correct nutritional deficiencies, maintain an adequate intake of certain nutrients, or to support specific physiological functions in the body.

İÇİNDEKİLER: L- Arjinin - Maltodekstrin - Demir Diken Ekstresi (Tribulus terrestris) - HPMC (Kapsül) Epimedyum Ekstresi (Epimedium sp) - Sarımsak Soğanı Ekstresi (Allium sativum) - Zeytin Yaprığı Ekstresi - Yağ Asitlerinin Magnezyum Tuzları

INGREDIENTS: L- Arginine – Maltodextrin - Devil's thorn (Tribulus terrestris), HPMC (Capsule) – Epimedium extract (Epimedium sp) - Garlic onion Extract (Allium sativum) - Olive Leaf extract - Anti-Caking: Magnesium Salts of Fatty Acids

KULLANIM TALİMATI / DIRECTIONS : 11 yaş ve üzeri bireyler için günde 2 kapsül yemeklerle birlikte bir bardak su ile tüketilmesi tavsiye edilir./ It is recommended to consume 2 capsules a day with a glass of water with meals for people aged 11 years and over.

Rich in Gallic Acid and Oleuropein High Antioxidant Capacity

Immunostimulant and Immunopotentiating Activity Against Viruses and Bacteria

Antibacterial Property Supporting Dental Plaque and Gingivitis Treatments

Preventing Dental Carries

Antibacterial Property Supporting Gastro Protective Treatments

Helps to Improve Lipid Metabolism / Insulin Sensitivity

ingredients

- Pomegranate peel extracts
- Olive leaf extract (OLE)

DOLEV SPREY

- Dolev Sprey is a food supplement including pomegranate peel extract which is rich in gallic acid and olive leaf extract (OLE) which is rich in oleuropein.
- These are the phenolic compounds that has been shown to have **antibacterial** activity, **antiviral** activity and **antifungal** activity.

DOLEV SPREY

- Pomegranate (especially peel extract) possess a prophylactic potential against viral epidemics and **pandemics**, specifically influenza.
- The **antiviral** properties of the polyphenolic extract of pomegranate are due to the inhibition of influenza virus RNA replication.

DOLEV SPREY

- Using an oral rinse based on extracts of pomegranate would significantly reduce (about 84%) the number of microorganisms from the **dental plaque** .
- Pomegranate peel extracts are capable of inhibiting the growth of cariogenic bacteria and inhibit biofilm formation, acid production, and extracellular polysaccharides production by *S.mutans*, showing these extracts' potential to prevent **dental caries**.

DOLEV SPREY

- Due to its formidable **antioxidant** capacity, daily dietary supplementation of the extracts obtained from the pomegranate has positive effect in **modulating cholesterol levels** and preventing cardiovascular diseases, and lowering glycemic values in T2DM patients.
- Also daily supplementation with pomegranate peel extracts attenuated the systolic and diastolic blood pressure in patients with type 2 diabetes and presented hypolipemic, **hypoglycemic**, and antioxidative potential .

DOLEV SPREY

- OLE has been shown to exhibit **antiviral** activities against some DNA and RNA viruses .
- Oleuropein, an isolated components of OLE, showed significant antiviral effect against respiratory syncytial virus and parainfluenza type 3 virus, in direct contribution to its antioxidant properties.

DOLEV SPREY

- The in vitro **anti- H. pylori** activity of essential oils and herbal extracts of olive has widely been demonstrated in the literature.
- These results propose the possible effect of olive oil and its phenolic compounds in preventing peptic ulcer and gastric cancer by **anti-H.pylory** activity.

DOLEV SPREY

- Hydroxytyrosol, an oleuropein derivative, improves cardiac diseases and tumor diseases with effects similar to those of oleuropein . In addition, hydroxytyrosol protects against **atherosclerosis** and prevents diabetic neuropathy .
- Also Olive leaf polyphenols showed to **improve insulin sensitivity** in vivo study in middle-aged, overweight men.
